

Jodi Kozan

Gifted Communicator, Writer, and Woman of Influence
Imparting Vision and Restoration

Jodi's passion is to impart a **vision of restoration** and every word she writes and speaks is strategically aimed in that direction. She is the founder and President of Women's Journey of Faith, a non-profit, non-denominational ministry to all women. Hosting conferences and seminars for all ages since 1999, she has experienced great joy witnessing hundreds and thousands renewed in their faith. It is her heart's desire that through the ministry, all will come to experience restoration in Jesus Christ, which includes unity among beautiful diversity. Jodi has appeared on numerous radio programs and national television shows, including the *Miracle Channel* and *100 Huntley Street*. She's the host and presenter of *Heart To Heart*, a women's outreach initiative on *Channel North Africa*. She knows the impact of a restored life in Jesus and is excited to speak to groups across the nations. Jodi's primary audience is women, youth and Christian leaders, and she is open to speaking at teen events and leadership forums as well.

Pursuing pageant titles amidst worldly status and success, Jodi still found herself empty. After marrying her Prince Charming and moving far from home, she faced loneliness through this transitional time. Grieving the loss of innocence through past teenaged mistakes, including having an abortion, darkness haunted her for years where fear suffocated her identity and potential. Her journey was miraculously changed in 1996 when she experienced God profoundly and He began to transform her from the inside out. Rather than looking to people, things, position or self, she learned that in Christ she is whole. Her message of freedom reaches many hearts because she understands the universal call and longing to be fully restored. She is able to relate to people whose cry is ultimately the same: **to be loved, secure, significant and accepted.**

Jodi's primary speaking topics include:

Fully Restored! The Call and Cry of Every Woman

Tying in with her book, Jodi is a compelling visionary confirming our Creator's plan of restoration! This topic explores God's unique design, plan and purpose for women. Jesus came to restore what was lost in the fall of mankind: He restores us to our heavenly Father, to each other, and to our original intent.

Freedom's Journey

Jodi shares candidly about her personal journey of faith and invites others to see themselves as God sees them. Freedom in Christ is a relationship, not a religion.

Faith Stories: Love Your Testimony

A practical teaching on what a biblical testimony is and how important one's story can be. This presentation helps others overcome fear, and learn to share their story with confidence by focusing on Jesus as the center of their testimony. An excellent workshop to invite Jodi and/or members of the Faith Stories team from Women's Journey of Faith.

God Sized Dreams

Learning to hear the voice of God and stepping out is an adventure! In this session, Jodi shares how her personal vision, mission statement, and core values affect how she steps out into her God sized dreams. A great interactive session for groups or ministry teams to step out of their box with confidence in Christ!

**These can be shared within a keynote message, a full day seminar or in a weekend retreat format. Jodi loves a challenge and speaking on new topics! She will personalize a message to suit your ministry/organizational needs. See website for other speaking topics!*

Jodi was born and raised in Northern Minnesota. She married her Canadian sweetheart, Tim, in 1990 and moved to the wide-open prairies of western Canada and is ecstatic about her dual citizenship journey. Together, they have four amazing daughters. Currently enrolled in seminary, she enjoys studying God's word, speaking, writing, and spending time with family and friends. **She knows deeply that true restoration begins in the heart, extends to the family, and infiltrates the world!**
